

You are why we care.

Fresenius Kabi, a global healthcare company, created the KabiCare Patient Support Program to work closely with you and your healthcare providers to help navigate your insurance, financial assistance, and medication access needs to simplify your treatment journey.

KabiCare is designed to support your care:

Starter Kit

A starter kit will be mailed to you once enrollment is complete. Inside the starter kit, you will find important information about your medication and the KabiCare Patient Support Program.

Case Management Support

KabiCare helps you navigate insurance processes and provides information related to your insurance coverage. After enrollment is complete and insurance is confirmed, you will receive a phone call from KabiCare to review your benefits and discuss other KabiCare resources that may be available.

Financial Assistance

KabiCare can help with enrolling you into additional assistance programs.*

Commercial Copay Program

If you have commercial or private insurance, you may be eligible* for the copay assistance program that lowers your out-of-pocket costs to as little as \$0/month for treatment with an annual maximum.

Patient Assistance Program

If you do not have insurance and/or cannot afford your medication, you may be eligible for additional assistance through the Patient Assistance Program.

Bridge to Therapy Enrollment

The Bridge to Therapy program provides commercially insured patients access to treatment without delay while they are waiting for insurance approval.**

Nurse Support

Once you are enrolled, KabiCare nurse educators are available to help you understand your disease, treatment, and prescribed medication. They can also provide additional resources. Nurse support provided by KabiCare is not meant to replace discussions with your healthcare provider regarding your care and treatment.

Transportation and Lodging

KabiCare will look into potential transportation and lodging benefits that may be offered by your insurance. A list of independent foundations[†] is provided when treatment-related transportation and lodging assistance are needed.

Ask your healthcare provider about KabiCare enrollment.

**Eligibility criteria apply. Patients are not eligible for Bridge to Therapy support if the prescription is eligible to be reimbursed, in whole or in part, by any state or federal healthcare program.

[†]Eligibility for resources provided by independent nonprofit patient assistance programs is based on the nonprofits' criteria. Fresenius Kabi has no control over these programs.

KabiCare is here for you.
